

OLYMPIC TOWER

Dear Fellow Board President:

JMPB Enterprises was our choice to do the hallway renovation project at Olympic Towers – 641 Fifth Avenue. We are one of New York's most prestigious condominiums managed by Elliman PM with 330 units and 30 residential floors.

We contracted every aspect of the project with JMPB and their craftsmanship and commitment to scheduling deadlines was excellent. They provided the appropriate number of men to complete this job on time and within budget. Our AIA, Selldorf Architects, has also held them to a rigorous process of project management to which JMPB has delivered on.

Our shareholders have also been impressed by JMPB's cleanliness and professionalism and there was minimal impact to the residents as a result of their method and approach to our building.

I do not hesitate to recommend JMPB Enterprises for any common area renovation.

Very Truly Yours,

Charles Yassky
Board of Directors
Olympic Tower
